

Up your Game with the Sky MX7

If you want to “up” your game, the MX7 is the way to go. Armed with an Intel i7 6700 HQ Skylake CPU and an NVIDIA GeForce GTX 980M (8GB DDR5) GPU, this laptop is a serious competitor.

Compliment your arsenal with up to 64 GB of DDR4 RAM and up to 11TB of storage for streaming highlights, and you’re ready to fight your way to the top ranks!

17.3 inches of bold beautiful display! With an FHD display, you can have that HiDef display you have always wanted!

Screen Tearing takes all the fun out of blasting your buddies when online gaming. G-Sync technology will ensure you are at your best and ready for battle!

The GeForce GTX 980M takes advantage of next-generation NVIDIA Maxwell™ architecture to deliver unrivaled performance, advanced graphics technologies, and improved battery life. Now you can take on the most visually challenging games with fast, smooth gameplay at ultra-settings.

Next Generation DDR4 memory is here. Overcome one of the greatest computer limitations; memory! From networking, cloud computing and more, memory-dependent applications require increasingly higher densities of memory and higher levels of performance than are attainable on current DDR3 technology.

Backlit Multi-colored full sized keyboard with numeric pad...When a plain old backlit keyboard is just not enough!

Only 1.18 inches thick when closed. An easily luggable powerhouse!

7 lbs (3.2 kg) of twisted steel and sex appeal! Even with all this power you will be able to easily carry or backpack this notebook to and from work and play. No more carrying multiple components to LAN parties!

Biometrics are automated methods of recognizing a person based on a physiological or behavioral characteristic. Among the features measured are fingerprints. Only the person bearing your fingerprint will be given access to your notebook and all of your personal information.

Trusted Platform Module technology provides a security-related crypto processor that carries out cryptographic operations. Or in terms we can all understand...it keeps your data safe!

Onkyo has been around forever providing quality stereo equipment. Now you can find them providing great speakers in our notebooks!

Sound Blaster has been the benchmark in computer sound since day one! It provides Premium audio quality!

Over 3 hours of battery life. Lots of time to get some work done in an Airport or on the dock at the cottage.
